

THE FANTASTIC WORLD OF THE PORTUGUESE SARDINE

We've gone insanely craaaazy for what we love the most: Sardines! Grab the six pack and enjoy pure Portuguese flavour in different recipes, each one better than the other!

Dare to share this delicious madness!

TIMELESS SARDINES

The Portuguese Sardine got inspired by the fantastic world of circus, itself also noble and popular, to offer an unforgettable experience. The years are depicted on tins bursting with colour and fantasy, marking an event and the birth of the most relevant personalities.

The perfect gift!

Pure Portuguese flavour. Exquisite skinless and boneless sardine fillets, prepared by wise hands and enriched with edible gold flakes, crowning the Queen of the Sea.

The jewel of the crown.

PORTUGUESE FESTIVITIES COLLECTION

There is no major party in Portugal than the Popular Festivities, where Sardines rule! Four delicious traditional recipes: with peppers, with tomato, with lemon and smoked spicy.

Will you join the party?

SHELLFISH

Lobster, with a spicy touch and its Royal Highness, the King Crab, both with a juicy, tasty and intense meat. A world-class seafood for the most exquisite tastes.

PATES

With olives, aromatic herbs or bread. With dried tomatoes, cumin, onions, lemon, carrots... when it comes to Pate, there is no shortage of ideas to taste it!

So traditional, so typically Portuguese!
